HARINATH VELIGANDLA

Data Analyst | Excel | SQL | Power BI | Python

Bengaluru, Karnataka | +91 9985770644 | veligandlaharinath470@gmail.com | linkedin.com/in/veligandlaharinath | github.com/veligandla-harinath

PROFESSIONAL SUMMARY

Data Analyst Intern and MCA graduate (2026) with hands-on experience in SQL, Excel, Python, and Power BI, skilled in cleaning, modeling, and analyzing datasets to uncover trends in customer behavior, revenue, and profitability. Built interactive KPI dashboards and reports from 10,000+ sales records and 7,000+ customer records to support data-driven decision-making, with strong attention to detail in collaborative environments.

TECHNICAL SKILLS

SQL: MySQL, CTEs, Joins, Subqueries, Window Functions, Views, Aggregations, Query Validation

Power BI: DAX, Power Query, Data Visualization, KPI Dashboards, Data Modeling

Python: Pandas, NumPy, Matplotlib, Seaborn, Data Cleaning, EDA, Data Manipulation

Excel: XLOOKUP, HLOOKUP, VLOOKUP, Pivot Tables, Charts, SUMIFS, COUNTIFS

Data Analytics: Data Profiling, Data Validation, Statistical Analysis, Data Storytelling

Tools: GitHub, Version Control

EXPERIENCE

Data Analyst Intern — BDreamz Global Solutions *May 2026 – Present*

- Cleaned, validated, and analysed 10,194+ sales records using Python, SQL, and Power BI, ensuring data quality and consistency.
- Performed exploratory data analysis (EDA) in Python to identify trends, patterns, outliers, and customer churn drivers across 7,043+ telecom customer records.
- Authored 20+ SQL queries using joins, aggregations, and subqueries to retrieve and summarise sales, product, customer, and regional data.
- Designed and developed 2 interactive Power BI dashboards with DAX measures, KPIs, and slicers to analyse sales performance, profitability, and customer churn.
- Used Excel PivotTables and lookup functions to identify sales trends, profitability differences, and underperforming products.
- Documented analytical findings and recommendations, highlighting sales trends, profitability patterns, and customer churn insights.

PROJECTS

Ecommerce Sales Analysis | *Python, MySQL, Power BI* | Project Link *2026*

- Cleaned, validated, and performed exploratory data analysis (EDA) on 10,194 retail sales records using Python and Pandas to identify sales trends, patterns, and data quality issues.
- Developed and executed MySQL queries using joins, aggregations, and GROUP BY to analyze sales, profit, products, categories, regions, customers, and discount performance.
- Designed an interactive Power BI dashboard with KPIs and slicers, tracking $2.33M in sales, $292K in profit, and 39K units sold across category, region, segment, product, and customer.
- Analyzed category profitability, finding Technology most profitable and Furniture low-margin despite high sales; examined the discount–profit relationship and loss-making products to recommend improvements.

Customer Churn Analysis Dashboard | *Power BI, DAX* | Project Link *2026*

- Developed an interactive Power BI dashboard analyzing 7,043 customers and identifying an overall 26.54% churn rate and key churn drivers.
- Analyzed and compared churn rates by contract type, internet service, and payment method, identifying higher churn among Month-to-Month customers (~43%), Fiber Optic users (~42%), and Electronic Check payers (~45%).
- Created and implemented DAX measures for churn rate, average tenure, and customer segmentation, with dynamic filters for interactive KPI and drill-down analysis.
- Designed dashboard filters for gender, contract type, internet service, payment method, tenure, and senior citizen status to support customer segmentation.

EDUCATION

Madanapalle Institute of Technology & Science — Master of Computer Applications (MCA) *2024 – 2026*

CGPA: 8.43

Srinivasa Degree College — Bachelor of Science (B.Sc.) *2021 – 2024*

CGPA: 7.23

CERTIFICATIONS

- SQL and Relational Databases 101 – IBM Skills Network (via Cognitive Class), Oct 2026
- Data Analysis with Python – IBM Skills Network (via Cognitive Class), Oct 2026
- Python Programming Certification – One Roadmap, 2025

LANGUAGES

- English, Telugu
